Two Sigma Internships 2026 New Hiring

Description

Two Sigma's Internship program is designed to provide talented and motivated students with the opportunity to work on challenging projects and gain exposure to the world of quantitative finance and technology. As an intern at Two Sigma, you will work closely with experienced professionals, engage in meaningful projects, and contribute to the firm's mission of using data and technology to make financial markets more efficient.

Responsibilities

- **Project Work:** Collaborate with teams across the organization on real-world projects related to quantitative research, data analysis, software development, and more.
- **Learning Opportunities:** Participate in training sessions, workshops, and seminars led by industry experts to enhance your skills and knowledge.
- **Research and Analysis:** Conduct in-depth research and analysis to solve complex problems and contribute to the development of trading strategies.
- **Technology Development:** Gain hands-on experience with cutting-edge technology tools and platforms used in quantitative finance.
- **Collaboration:** Work in a collaborative and inclusive environment, sharing ideas and insights with colleagues to drive innovation.
- **Mentorship:** Receive guidance and mentorship from experienced professionals who will help you navigate your career path in finance and technology.

Qualifications

- Current enrollment in a bachelor's, master's, or Ph.D. program in a related field (e.g., finance, computer science, mathematics, engineering).
- Strong analytical and problem-solving skills.
- Proficiency in programming languages such as Python, C++, or Java is a plus.
- Excellent communication and teamwork skills.
- A passion for quantitative research, data analysis, and technology.

Job Benefits

- Competitive compensation.
- Access to state-of-the-art technology and resources.
- Networking opportunities with industry leaders.
- Exposure to real-world financial markets.
- Career development and mentorship programs.
- Collaborative and inclusive work culture.

Contacts

Interested candidates are encouraged to submit their resume, cover letter, and any relevant transcripts or portfolios through the Two Sigma careers website. Be sure to include a brief statement about your interest in quantitative finance and technology.
